Living room	Dining room	Bedroom
Bathroom	Office	Wildcard

Let's play "house prep" tic-tac-toe! To win cross off three connecting squares. To cross off a square you must complete a 10-minute tidy, cleaning, or decluttering task in the area.

Set a timer for 10 minutes, then do one of the following:

- Clean
- Put things away
- Find things to add to a "donate" bag

DO NOT pull everything out – this is not a makeover; it is a mini task.

You may not get the whole task done and that's okay. The goal is to work for the length of time – regardless of whether the project is complete. By the time you complete the whole board you'll have made noticeable progress.
